Surya Swarup [IIM-B]

- Verified Connections
- Real-time Safety
- Community-Driven

THE FOUNDATION

The Problem & The Solution

THE PROBLEM

Traveling Solo in India is Lonely & Unsafe

Solo travelers face **high safety anxiety**, lack of assistance during emergencies, and social isolation on long-haul journeys across India's vast railway network.

23 MILLION

Daily passengers in India

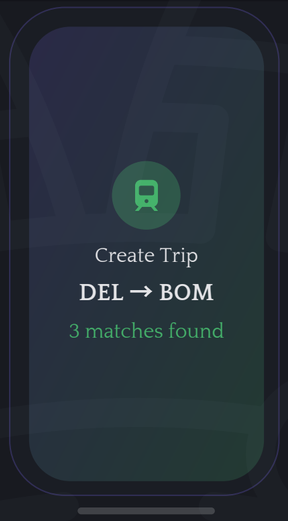
~30% travel solo with safety concerns

THE SOLUTION ~TransitMate

TransitMate: Verified Social Travel

A **security-first platform** that connects verified passengers via PNR data to create safe travel corridors and meaningful connections.

- Mandatory Gov-ID Verification
- Persistent SOS Security Button
- PNR-Based Route Mapping

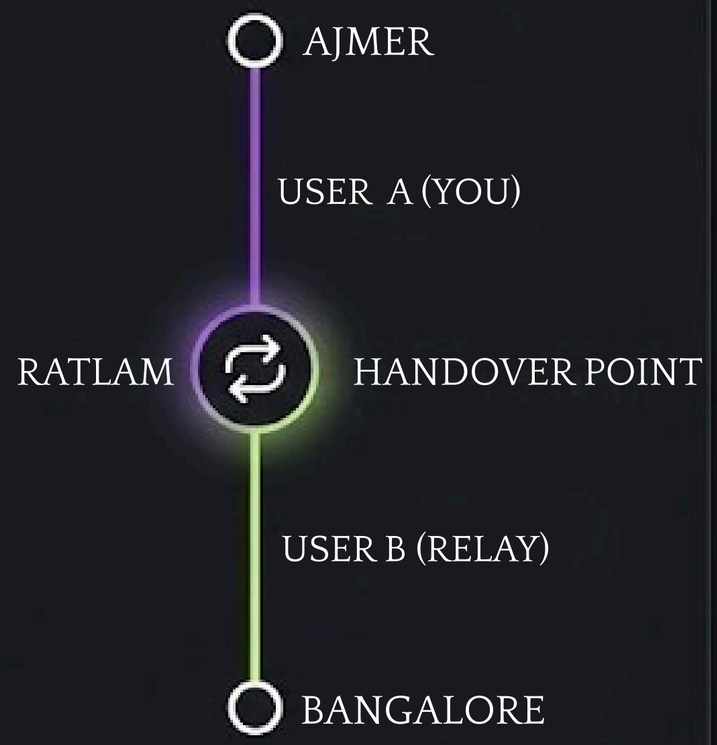


THE INNOVATION

THE RELAY PROTOCOL

Solving the 'Empty Leg' problem with dynamic route stitching.

System Status



01. DEEP PNR SCANNING

We don't just check destinations. The algorithm scans the entire train route to find passengers boarding at intermediate stops.

02. SEGMENT STITCHING

No direct match? No problem. The system pairs you with User A for the first leg and seamlessly hands you over to User B for the second."

03. INHERITED SAFETY

Safety never breaks. Every link in the relay chain undergoes the same mandatory Biometric & Government ID verification.

COMPETITORS: 100% Overlap Required (High Failure).

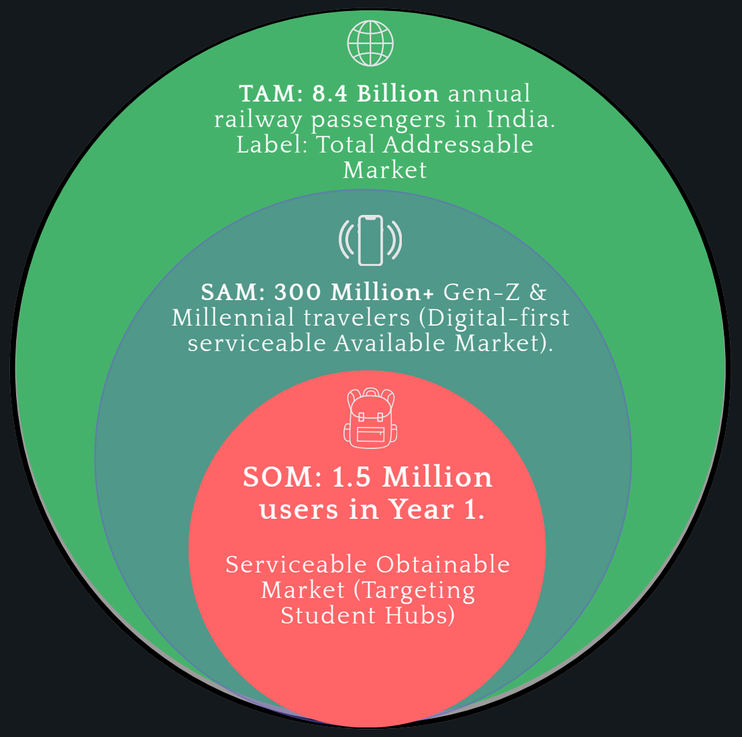
TRANSITMATE: Partial Overlap Optimized (3.5x Higher Match Rate).

MARKET ANALYSIS

Market Opportunity & Scalability

A Multi-Billion Passenger Opportunity

Market Sizing: TAM/SAM/SOM



Key Driver: Rising smartphone penetration + solo-traveler safety anxiety in Tier 1 & 2 cities

Scalability Roadmap

Premium Rail

Go-to-Market

Focus on Rajdhani, Shatabdi & student-heavy routes (Ajmer-Bangalore, Delhi-Mumbai)

Bus Network

Adjacent Markets

Expand to private bus operators (redBus integration) · ₹30,000 Cr market

Global Expansion

Vertical Integration

Last-mile safety + SE Asia backpacker trails integration

BUSINESS MODEL

The Revenue Engine

Hybrid Revenue Streams: Scalable B2C & B2B

Consumer

B2C Direct

Connect Pass — **₹29**

per trip · Unlimited requests · Premium safety features

Monthly Plan — **₹99**

For frequent student travelers · All premium features

Sachet pricing for Indian market

Community

B2B2C Partnerships

Campus Official Partner

Branded travel portals for college fests & events

Bulk Event Fee — **₹3K-5K**

- Target: SRCC Conclave, IIT Fest, etc.
- White-label solution for institutions

High-margin recurring revenue

Ecosystem

Affiliate Model

Last-Mile Integration

Shared cab bookings (Uber/Ola)

5-10% commission

Travel Essentials

Food-to-seat delivery
Hostel & accommodation referrals

Travel Gear

Partner discounts & affiliate sales

Passive income streams

Low CAC through Community-Led Growth ensures high margins & sustainable scaling

FINANCIAL VIABILITY

Path to Profitability: 3-Year Projection

Hockey Stick Growth: Users & Revenue Correlation

Key Milestones

Y1 — **Launch Phase**
3 Student Hubs: Kota, Pune, Delhi

Y2 — **Break-even Point**
Expansion to Bus Network

Y3 — **Pan-India Scale**
Data monetization kicks in

The Ask

Seeking **mentorship & seed funding** to reach Year 1 milestones and establish market presence.

APPENDIX A

The Competitive Landscape

Goal: Visually prove why you beat existing solutions (WhatsApp, Official Railway Apps, Standard Travel Apps)

FEATURES	TRANSITMATE	WHATSAPP GROUPS	RAILWAY APPS
Identity Verification	✓ Aadhaar + PNR	✗ None	— PNR Only
Relay/Chain Matching	✓ Yes	✗ No	✗ No
Privacy	✓ Number Masked	✗ Number Exposed	N/A
Real-Time SOS	✓ 3-Layer Alert	✗ Manual Only	— RPF Only

APPENDIX B

TECH ARCHITECTURE Scalable, Real-Time, Secure.

FRONTEND (The App)

- React Native (Cross-Platform)
- Mapbox SDK (Live Tracking)
- Socket.io (Real-time Chat)

BACKEND (The Brain)

- Node.js & Express
- MongoDB (User Data)
- **Algorithm: Graph-Based Path Stitching**

INTEGRATIONS (The Data)

- IRCTC / PNR Status API
- Aadhaar KYC API (DigiLocker)
- Razorpay (Payments)

Prototype hosted on Tiiny.site (v1.0 Live).
